

EstateGuidance®

A User-friendly Tool for Creating Legally Binding Wills

As the cornerstone of an estate plan, a will addresses some of the most important decisions in life: who should care for children and how should assets be divided in the event of death. Because of these difficult questions, as well as the time and cost required to research options and hire a lawyer, many people avoid writing a will. EstateGuidance eliminates these common barriers by providing a simple, economical online tool for will preparation. By using the online tool and answering a series of questions, employees can conveniently create a simple will as well as access additional documents and information.

Dynamic Online Tools and Services

ComPsych developed EstateGuidance to help employees secure their future by overcoming the legal, financial and emotional barriers to writing a will. EstateGuidance walks employees and their family members through the documentation process and breaks down each step into easy-to-understand terms. EstateGuidance offers three services:

1. Last Will and Testament - the central component of every estate plan
2. Living Will - outlines end-of-life medical decisions
3. Final Arrangements - specifies burial or cremation preferences; funeral or memorial service options

The ComPsych Difference

- Convenient online access to documentation tools from home or office
- Simple-to-follow questions guide employees and family members through the process
- Creation of a legally binding will, valid in all states and ready to sign
- Value-added complement to the ComPsych GuidanceResources program
- This tool is easily accessible via mobile, tablet or desktop
