An eye on your health: Comprehensive eye exams

An eye exam can be one of the first places to detect some serious eye and health conditions – like high blood pressure, high cholesterol and diabetes. Eye exams are essential for kids, too, since vision issues can seriously impact a child's ability to learn.

And because you have EyeMed, your family can see eye doctors who offer the latest in digital exam technology and retinal imaging, giving them the best look into your eye sight.

The routine wellness exam includes:

- Dilation (if needed)
- Case history
- Patient observation
- Clinical diagnostic testing, including binocular function
- Refractive status
- Color vision testing
- Stereopsis testing
- Assessment, diagnosis and treatment plan
