

Make your refills automatic **and** easy

Meet Kyle and Nick – two Express Scripts pharmacy patients who take medications on a daily basis. But there's one big difference...

Kyle

has a 90-day supply of his long-term medication set up for automatic refills through home delivery or from a network retail pharmacy.

That's why Kyle gets to ...

Nick

doesn't have automatic refills set up for his long-term medication.

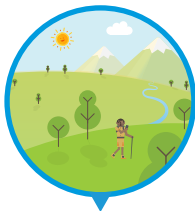

That's why Nick gets to ...

... keep on track with his **medicine** which helps him stay healthier!

... schedule a beach **vacation** instead of a refill reminder

... take long **hikes** without worrying that his medicine will run out!

... miss a dose because **he forgot to order his refill!**

... make time in his schedule to **order his refills every few months**

... worry that his refill won't arrive **before he runs out of medicine**

The bottom line: Be like Kyle – enroll in automatic refills and make life easy!

Sign up for auto refills today!

1

Log in to your account at express-scripts.com

2

Click Prescriptions, then Automatic Refills.

3

Select the medications you want to refill automatically.
