

Pharmacy Benefit Overview

The State of New Mexico, Plan Year January-December 2022

About Express Scripts

- Express Scripts is the State of New Mexico's chosen partner for administering your prescription plan
- We are a leading pharmacy benefit manager that puts medicine in reach for tens of millions of people
- As an Express Scripts member, you have access to:
 - 60k+ retail pharmacies located across the United States
 - Convenient home delivery services
 - express-scripts.com and our mobile app for ordering and managing your prescriptions
 - Accredo, an Express Scripts specialty pharmacy, for medications that treat complex health conditions
 - Specialty-trained pharmacists, nurses and other clinicians in 20+ condition-specific Therapeutic Resource Centers

DRUG LIST

- Physicians and pharmacists routinely review the medications on your drug list that are covered by your prescription plan
- Generic and brand-name medications (preferred)
 - Generics typically cost less than brand-name medications
 - Preferred medications are proven to work in the same way as their more expensive counterparts
 - You can still fill a prescription for a non-preferred medication, but you'll have a higher copayment
 - Certain medications are excluded – which means they are not covered at all
- Talk with your doctor about moving from non-preferred and excluded medications to generic and preferred medications

Ask your doctor if a generic medication will work for you

- When you receive a prescription from your doctor, or if you are taking brand-name drugs today, ask
 - If a generic version of the medication is available
 - If generic medications are right for you
 - If there are any risks if you change from a brand-name drug to a generic drug
- Generics have the same chemical makeup as brand-name counterparts and have the same effect on the body
- Makers of generics spend less on research and advertising, and the savings get passed on to you

8 out of 10
prescriptions
filled in
the United States
are for
generic drugs

Prescription Plan at a Glance
