

Video Counseling Visits

The
Solutions
Group

We are happy to announce, as an employee who is eligible for services with The Solutions Group Employee Assistance Program, you are now able to see counselors via 'Video Counseling Visit' sessions.

This means that employees and their eligible family members will be able to see a counselor on their smartphones, tablets, or computers.

It's part of EAP's expansion into telecounseling, which will add convenience for all our EAP members.

There will continue to be no copayment for the Video Counseling Visits service.

On average, it will take a member less than five minutes to connect with a live counselor once he or she sets up an appointment and registers for the counseling visit by calling The Solutions Group toll free number. Your visit will last 50 minutes with a counselor.

The video counseling visits should be especially valuable and convenient to employees in rural areas of the state where access to counselors and other health care providers is limited.
